SEED CORN CENTER OF THE WORLD

Aye Brothers' Seed Corn

Clean Pure Field Seeds—Easy Grown Garden Seeds—Choice Nursery Stock—Pure Bred Poultry

Last fall we got in everything to take the right kind of care of you this spring. When you buy seed, you want it to grow and you want the BEST—not the cheapest kind you can buy. If we can't sell you that kind of seed, we want to get out of the business. If we didn't sell you the best seeds we would have to get out before long—and we've been doing business here all our lives. We stayed right here where we were born and raised and made Blair "the seed corn center of the world." We refer you to any bank or business or laboring man, any mechanic or farmer, or any boy or girl in and around Blair.

JOHN R. AYE

FIELD SEEDS Unfavorable conditions haven't prevented us from getting our usual fine, large stock of field seeds. All our lots are clean, too, pure and free from foul and pesky weed seeds. Write us what you are thinking about as regards to field seeds. We will give you our best judgment.

NURSERY STOCK Our nursery stock—grown on the rich Loess soil, too, is of A-1 quality. We list only known and long established varieties. We guarantee all of our stock to be free from infectious diseases—healthy, vigorous and well formed. We send out nothing but first-class stock. State inspector's certificate accompanies each shipment.

SEED CORN We have plenty of good, sound, solid Seed Corn to supply everybody that orders early. We always have, for Blair is "the seed corn center of the world." Here is our guarantee:

GUARANTEE: All seeds bought from us must please buyer. Purchaser can keep and test seeds ten days and if not entirely satisfied return them and money paid for them will be returned; but we do not and cannot be responsible for a stand or a crop.

GARDEN SEEDS Everybody round here knows us for our fine seed corn and pure bred poultry. Do you know our garden seeds are of the same high quality as our world-famed seed corn and our nationally known pure bred poultry? To prove it—the largest planters of our garden seeds last year were those who planted our vegetable seeds the year before. We list only standard varieties. Plant them this year—of course, plant a home garden this spring. Uncle Sam urges it. That don't mean just the city man but the farmer, too. Home gardens are helping us solve the food problems.

PURE BRED POULTRY It looks like there will be a shortage of breeding stock before the season is over. Many specialty breeders have reduced their flocks and others sold off much during the summer, owing to the high price of feed. However, we are accustomed to taking care of our customers every year. And this season we are fairly well supplied with most of the popular varieties and can fill orders promptly. In fact, we usually get orders out within a day after we receive them.

GERMIKIL We are glad to be able to announce that we still will be able to fill all orders for Germikil, that has become so much in demand by our friends. We believe it to be the greatest remedy in the world alike for man, beast or fowl. It is A-1 for Roup, Cholera, Bowel Trouble, Sore Head, White Diarrhoea in fowls, Cuts, Sores, Bruises, Wounds, Dandruff, Itching, etc., for man; Barb Wire Cuts, Sore Shoulders, Necks etc., for horses.

Blair, Nebraska

COMB PRINTING CO., ST. JOSEPH, MO.

Aye Brothers

Here's the Way We Do Business

WE want to make money the same as you do. We know, too, from our personal experience that goes back over a quarter of a century, that the easiest and surest way is to give absolute satisfaction. We are not perfect, and we know it. We sometimes make mistakes. Who is there that doesn't, if they do anything at all. But when we do make a mistake, don't get mad and tell your neighbors how you have been skinned. Tell us your trouble, and ninety-nine times out of a hundred we can fix it out all right. Just try it.

Always sign your name, no matter how many times you have written to us, and give your full address. It is very important. Ladies, when writing, should use their husband's Christian name, and unmarried ladies should always prefix their Christian name with Miss.

A WORD ABOUT PRICES.

No one can tell exactly what the prices will be during the whole season, but we are getting but this catalog and price list, showing what the prices are now; and when you send order, if any seeds should go up or down, we will send you what amount your money will buy. These prices may remain during the whole season but are subject to change without notice.

HOW TO SEND MONEY.

When ordering, please send P. O. Money Order, Draft, Express Money Order, or Check, Don't send money if you can help it. There are reasons for this. Here is one of them. Sometimes we get letters where parties forget to sign their names, and we don't know whom to send goods to, but if a P. O. Money Order, Express Order, or Draft is sent, we can always tell to whom to send seed to. Please bear this in mind. But, if you can't get P. O. Money Order, Draft, or Express Order, of course send the money.

Send cash with order. If married women would use their husband's initials it would prevent trouble sometimes in correspondence. Single women should use the title "Miss" before their names.

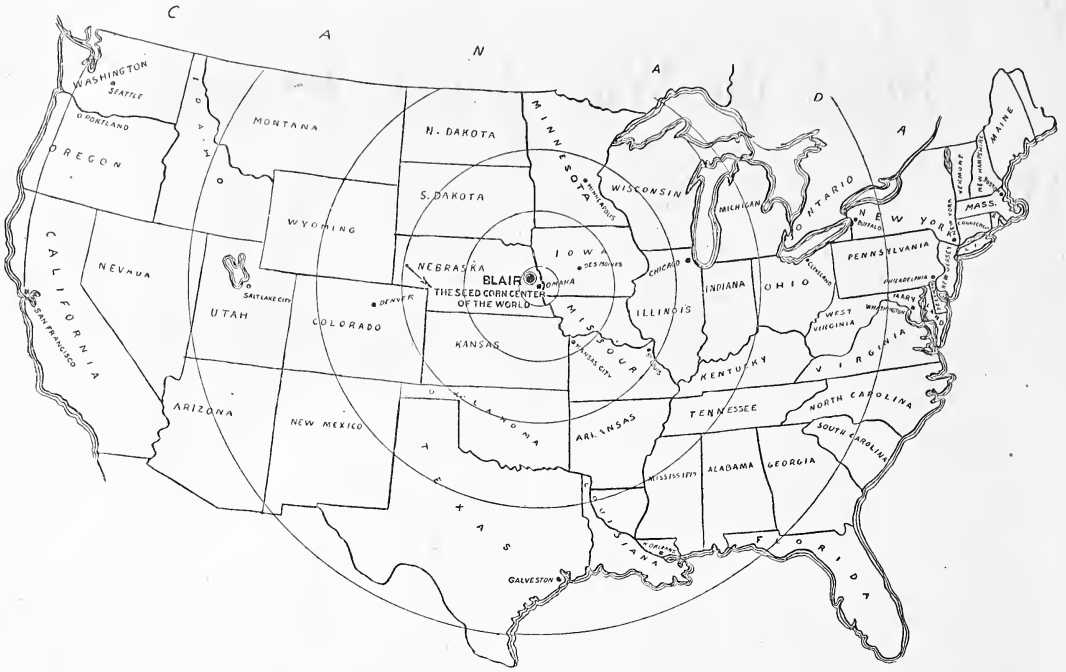

WHAT OTHERS SAY ABOUT US.

"Blair, Nebraska—county seat of Washington County—is to the Corn World what the Red River of the North Country is to the Potato World. Blair is the SEED CORN CENTER OF THE WORLD. This is a just claim, for more seed corn is sold within a radius of twenty miles of Blair than any other point on the globe. The highest quality seed and small grain known come from Blair. The soil is the pure Loess variety of glacial drift and is just the same, no matter how deep you go, until you strike water. Total crop failure is unknown. The seed corn is sent all over the world.

"The firm of Aye Bros., which has been selling seeds and poultry at Blair for 23 years, is known all over the world. It is largely due to the persistence and far-sightedness of the Aye Brothers—John R. and Adolph—that Blair today holds the distinction of being the greatest seed corn center of the world. Both men were born and raised in Blair and they have stuck to their native soil. They have faith in its wonderful richness and years of faithful experimenting have produced for them the highest quality of seed corn known. They receive orders for their seed corn, wheat and grass seeds from all parts of the world and hold high testimonials from state universities and farmers all over the country. Most of the prizes awarded year after year at corn shows are from Aye Bros.' seeds."—From the Omaha World-Herald, March 10th issue, 1912.

WHAT'S IN A NAME?

"Over at Blair, Nebraska, there is a firm by the name of Aye Bros.—John R. and Adolph. As to the pronunciation of this name, unless you hear it spoken by those who know, one might emphasize by using the letter A. This is wrong. It is just plain I, or Eye. For a quarter of a century they have been selling seed corn and field seeds and high grade poultry. While engaged in this business they have placed their town on the map as being the seed corn center of the world. Almost every state in the union has heard of or transacted business with this seed emporium, which is being recognized as the seed supply house of the middle West, the name being a household word in this section. To say Aye Bros. have an "Eye" for business is perhaps the proper way to express it, with such expression echoing back with repeated and increasing orders from year to year, and that is part of what is in a name."—Above was taken from "Echoes from the Highway."

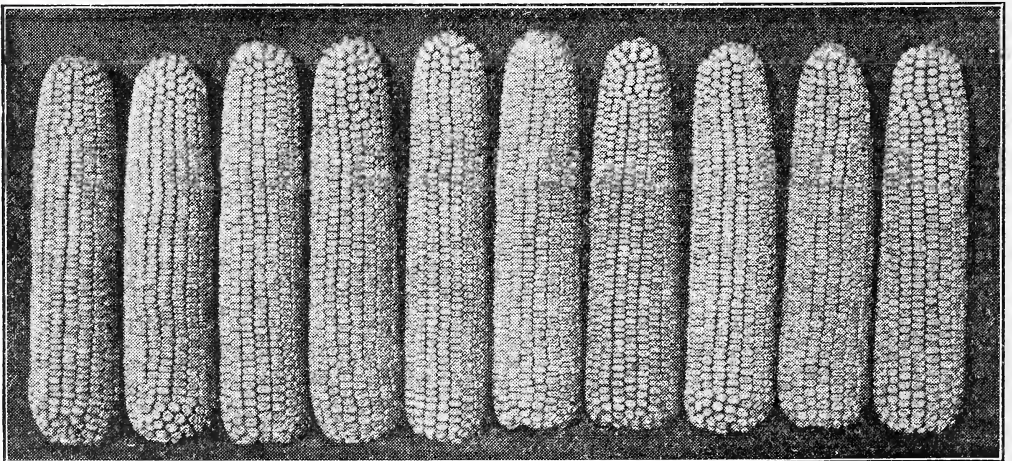

BLAIR, NEBRASKA— “The Seed Corn Center of the World” and Why

The above map shows Blair, Nebraska, is practically in the center of the United States. It is not so much the geographical position we wish to call your attention to as much as that we are ideally located to produce the finest Seed Corn in the world. We are far enough north to escape the hot winds of the South, far enough east to get plenty of moisture to produce the very finest ears, far enough south to grow nearly every worth while variety, and far enough west to thoroughly dry out the seed ears without artificial drying. There is undoubtedly more seed corn grown and sold within a radius of fifty miles of Blair, Nebraska, than any other spot in the world, hence the term of “Seed Corn Center of the World.”

We have hundreds of letters from corn growers from the North, East, South and West in which they say they are very much pleased with results they got from the Seed Corn they bought from us.

If in need of seed Corn send us your order and we feel sure you also will be one of our many pleased customers.

We have furnished seed corn to our customers that produced lots of corn like above picture.

Prize-Winning Corn at National Corn Show Held at Columbus, Ohio.
Grown by Aye Bros., Blair, Neb., "Seed Corn Center of the World."

Seed Corn

Reid's Yellow Dent

Our Reid's Yellow Dent as grown in Washington County on our seed farms is without a doubt the best corn grown anywhere in the world. We will admit that in the past we have been partial to our kind of Reid's for we have seen the so-called Reid's Yellow Dent at other places that certainly did not look good to us. We used to pick the very deepest kernels for seed, but we have found, by actual experience, that it is not the best policy to follow. We have found that the medium grained ears are the best for seed. We are getting better and bigger yields every year by our method of selection. Our strain of Reid's is winning more prizes than any other strain of corn that we have any knowledge of.

We could fill this entire catalog with testimonials and lists of prizes that our corn has

won for us and for those who have used our seed.

Price, \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for ten bushels or more. Bags free.

We have a few bushels of extra select Reid's Yellow Dent, Silver Mine, Nebraska White Prize, that we offer for \$6.25 per bushel, and we believe that you will be pleased with it.

Every spring we have calls for corn for breeding plots for an acre or so, and we have selected the very finest ears we have and will ship you ten ears (enough for an acre) for \$3.00. Each ear will be wrapped separately but we will not send less than ten ears.

Sample ears 50 cents, postpaid.
Sample shelled corn free.

Reasons Why You Should Buy Your Seed Corn from Us

We send out only selected ears.

Our corn is handled five or six times before it goes to our customers.

We grow the best strains of corn in the world.

We live in the center of the corn belt.

Blair is the seed corn center of the world.

Our corn matures early.

It is a heavy yielder.

It reproduces itself.

It wins prizes for others.

Our corn does as well for others as it does for ourselves.

We satisfy our customers.

We have the best of shipping facilities.

We ship the same day we get the order.

You can return seed if it fails to please you.

The State Experiment Station recommends us as reliable and as having the right type of corn.

We have the best in the world.

We have sent seed to farmers, stock men, seed men, elevator men, professors, dairymen, doctors, boys and girls, professors of Universities, to foreign countries, people just starting out as farmers, dealers, live stock auctioneers, breeders, show corn growers, editors, manufacturers, cheese makers, and railroad presidents, and they like it.

The object of this little book is to tell you what we have to sell, and you will find in the following pages as brief a description as possible of the things we are offering.

If there is anything you don't understand about our goods after reading this catalog just write us and we will answer you at once.

We want you to become one of our regular customers, for we believe that it will be mutually profitable. Let us hear from you whether you want to buy something from us or have something to sell.

Reid's Yellow Dent.

Blair Yellow

The Blair Yellow Corn is about ten days earlier than Reid's. The grains are rough and deep, medium in size, the stalks strong and considered by some of our farmers to be the best all around corn grown and one of the surest croppers. It shells out a high per cent of corn to the cob. It stands up well. We have watched this corn grown by one of our best farmers and he always grows a good crop,

even in a very dry year, having raised 65 bushels when other corn was making only 15 bushels to the acre. This is fine feeding corn. The longer we know this corn the better we like it. If you want a yellow corn that is earlier than Reid's you cannot go wrong in getting some of this seed.

Price: \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for ten bushels or more. Bags free.

Iowa Gold Mine

In characteristics this corn is very much similar to the Legal Tender. It is very popular throughout the middle zone, and we have seen some big yields from this deservedly popular variety. The ears are of medium size, with kernels of uniform depth and fairly smooth.

Price: Same as Reid's Yellow Dent.

Silver Mine

Silver Mine corn is the most popular white variety grown in the corn belt. It is early, yields heavy, has deep grains, stands up well and will probably grow more corn to the acre on this land than any other variety. It yields enormously on heavy soil. The ears are not very high from the ground and make it a most desirable corn to husk. The quality is always good and has a great feeding value. The cob is white and not large. If you want to plant a medium early white corn get some of our strain of Silver Mine. We know it will please you. Some of our Blair farmers won't grow any other kind.

Price: Same as Reid's Yellow Dent.

NEBRASKA WHITE PRIZE

The cut below is a picture of a prize ear of the White variety. This corn has been winning most of the prizes in the white classes. This corn is somewhat larger than the Silver Mine, but is ten days later. It surely is the corn for rich heavy soils.

Price: \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for ten bushels or more. Bags free.

CALICO CORN.

We have a limited amount of fine Calico Corn that we are offering for \$4.25 per bushel for two bushels or more. Bags free.

BLOODY BUTCHER.

A Red Corn that matures around 100 days. Price. \$4.25 per bushel. Bags free with two bushel order or more.

Grown in South Dakota by Mr. Collins, from seed procured from us.

"75 BUSHELS TO THE ACRE."

Gayville, S. D.

Aye Brothers, Blair, Neb.: This corn was raised from the seed I got from you and went 75 bushels to the acre—Reid's Yellow Dent. C. F. COLLINS.

EXPERIMENT STATION RECOMMENDS US.

Belgrade, Neb.

Aye Brothers, Blair, Neb.: Received your name from the Experiment Station at Lincoln, saying that you had seed corn for sale. Please send prices. —RALPH E. BARBER.

Early Varieties

Blair White (90-Day Corn)

Here is a corn that we have been watching for the past two years, and from what we have seen we think it one of the best kinds of corn grown, and we believe it is the coming corn. It is of a fine white color. The ears are very long and the kernels are mostly smooth. It will ripen every year in this part of the country. The stalk is of medium height, stands up well and we like this variety so well we hope to be able to put out more of it next year. Although there was much seed corn in the country last year we could not supply the demand, but this year we will be better able as we had a good deal of this raised and don't intend to get swamped. It matures in about ninety days. One man reports that he raised 70 bushels.

We wrote the above lines about Blair White Corn a few years ago and at that time we thought it was the "coming corn" and got a lot of corn growers around Blair to plant some and up to date we have not heard anything but praise for Blair White Corn. One man reported 70 bushels per acre a few years ago. Last year Mr. Elza King reported that he grew 81 bushels of corn per acre and we bought all he had to spare and sold most of it for seed.

Mr. Reeves claims he raised 66 bushels per acre on very hilly land. Mr. Eakin says he plants Blair White Corn last and it is ripe the earliest in the fall and he starts to husk it first.

One man says he can plant Blair White Corn thicker than most varieties and get a good ear on every stalk. He says he had five stalks to a hill and a good sized ear on every stalk.

We recommend this corn as a good corn to grow anywhere in the corn belt. Why not try a few bushels and have some early feed. Some varieties of corn put out by some seedsmen are we think entirely too late maturing for the average season.

The kind of corn to plant is the variety that will produce the largest amount of good feeding corn per acre. Blair White won't disappoint you.

We are not going to take back any of the good things we have said about Blair White Corn. Of the early varieties it is one of the best.

Price: \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for ten bushels or more. Bags free.

University No. 3 (90-Day Corn)

This variety is along the line of our Blair White except it is yellow in color and ears are slightly tapering. Ears long (10 to 14 inches). Grain not very deep. Like our Blair White, it is a 90-day variety, stands up well, a good feeding corn and a splendid yielder (some growers reporting around 75 bushels per acre). As you probably know, lots of early kinds of corn don't yield heavy, but University No. 3 and Blair White are the exceptions. After trying out University No. 3 with some other varieties of yellow corn one of our very best farmers here is going to plant most of his acreage to University No. 3.

If you want the best early Yellow Corn get University No. 3.

It was originated at the University of Nebraska. It is not a show corn but it is early and a great yielder.

Price: \$4.50 per bushel in the ear or shelled. \$4.25 per bushel for 10 bushels or more. Bags free.

Ninety-Day Red

If you live in western Nebraska, western Kansas, in South Dakota, or if you want an early corn, you cannot find a corn that will do you more good than our early Ninety-Day Red. This is one of the finest varieties to plant for hogging down. Every hog raiser should grow a patch of this early corn, and turn his hogs into the patch about August. The best gains we ever make on a bunch of hogs is when we turn them into a patch of growing corn and let them harvest it. After the hogs are through with it sow winter wheat on the land and see what a big crop you will have. Our Ninety-Day Red has a red color with a white cob. It is a drouth resister. Get a few bushels for a part of your corn crop.

Price: \$4.50 per bushel, shelled; \$4.25 per bushel for 10 bushels or more. Bags free.

Pride of the North

This is a small variety of corn that matures in ninety days and is the best yellow corn to plant in the north or far west. It has a deep yellow grain, small cob and is used more than any other corn for replanting. It is also a good yielder. One man reports that he raised 65 bushels, but we never raised quite that much ourselves. We only plant a small acreage of this variety but we are always sure of ripe corn.

Price: \$4.50 per bushel, shelled; \$4.25 per bushel, for 10 bushels or more. Bags free.

Fodder Corn

A field of corn intended for fodder purposes is and should be planted somewhat thicker than where corn is planted for purpose of saving the ears for cribbing. Our seed is composed of butts and tips of our graded shelled corn but is run over the mill and all silk, chaff, cobs and dirt is taken out, but of course the grains are not as even as graded seed corn but it makes good seed for fodder purposes and our price is less than for graded shelled seed corn.

Price: \$3.00 per bushel.

CORN O. K.—62 OUT OF 63 GREW.

Neola, Iowa.
Aye Brothers, Blair, Neb.: The corn I got from you was all O. K. I tested 63 ears and 62 of them grew.—FRED OLTMANN.

"BEST I EVER SAW."

Oakland, Neb.
Aye Brothers, Blair, Neb.: My seed corn was fine. I have been buying yellow seed for a number of years, but this is the best I have ever got yet. While it was at the depot, a party phoned as to the possibility of getting some. I told him to call you up.—CHAS. M. HULBERT.

TESTS HIGH.

Lyons, Neb.
Aye Brothers, Blair, Neb.: Tested seed corn twice. The Silver Mine tested 97 and the Legal Tender 92.—PERRY ANDERSON.

Flint Corn

Flint Corn is one of the very earliest varieties of corn grown, and for real early feed or for land that cannot be planted till late in the season get some Flint Corn.

Price: \$4.50 per bushel; \$4.25 per bushel for 10 bushels or more. Bags free.

Squaw Corn

This also is a real early variety and is dwarf in stalk growth but is considered by some to be a drouth resister. Kernels small and are blue, white and a mixture of blue and white.

Price: \$4.50 per bushel; \$4.25 per bushel for 10 bushels or more. Bags free.

White Cap Yellow

White Cap Yellow is a splendid corn and in some respects is similar to Blair White, but the kernels are very short and have a yellow color capped with white. The ears are long and slim and become quite large on good rich soil but will also make a fair sized ear on medium rich to poor soils. It is a 90-day corn and it surely is a good yielder for corn that matures that early. We have a limited quantity that we are offering either in the ear or shelled.

Price: \$4.50 per bushel; \$4.25 per bushel for 10 bushels or more.

Seed Corn in Car Lots

We can also furnish you Seed Corn in car lots, either in bags or ship it to you in bulk. Can grade it or send it to you just as it comes from the sheller, and the price will be made accordingly. Write for prices.

Conclusions: When we started in the Seed Corn business we sent out only ear Seed Corn, but in the last few years our old customers who we have been doing business with us, and knowing the quality of corn we have been putting out, have been demanding shelled corn.

To all new customers we want to say that the price of Ear and Shelled Seed Corn is the same. Some parties make a reduced price on

shelled corn, but it costs us as much to prepare Shelled Seed Corn as Ear Corn, therefore the price is the same.

WINS FIRST PRIZE.

Osceola, Neb.
Aye Brothers, Blair, Neb.: The Reid's Yellow Dent corn I got of you won first prize on ten ears at the Polk County Corn Show.—E. M. SWANSON.

EARS 13 INCHES LONG.

Broken Bow, Neb.
Aye Brothers, Blair, Neb.: We are surprised at the fine crop of corn we have grown from your white seed corn, the stand being thin. The corn grew large. Ears measured 13 inches in length and in fine roasting ear now.—J. L. FERGUSON.

60 BUSHELS PER ACRE ON 90 ACRES.

Orum, Neb.
Aye Brothers, Blair, Neb.: In regard to seed corn I bought of you last spring, I want to say it was the best I ever saw. It grew perfectly, yielded over 60 bushels per acre on 90 acres. Had no barren stalks or suckers and the quality of corn cribbed was the very best.—EDW. S. HALLER.

116 BUSHELS OATS PER ACRE.

Wheatland, Wyo.
Aye Brothers, Blair, Neb.: Last March I sent you an order for 12 bushels of your Danish Side Oats. Sowed same about April 15th; got a good rain soon after seeding and they came up fine. I sowed the 12 bushels on 4 1-3 acres and gave them two irrigations; took 5 lbs. of twine per acre, and when I had them threshed I got 16,212 lbs. at the standard 32-lb. weight, 560—610 bushels, an average of 116 bushels per acre. While on the same kind of land joining where I sowed the Danish Side Oats I had common seed oats and only got 82 bushels per acre, so I know the difference was in having good seed. I am highly pleased with the returns from the small amount invested in your Danish Side Oats.—W. L. DAVIS.

A WORD FOR GOOD SEED CORN.

Clearfield, Ia.
Aye Brothers, Blair, Neb.: I write to tell you that the seed corn I bought of you last spring has proven most excellent. You will remember, my order was for ten bushels of your large Reid's Yellow Dent. Several men who had had considerable experience in corn growing, and whose judgment certainly could be relied upon, pronounced this seed corn to be the finest they had ever seen. This has been a very bad season for corn here in Southern Iowa, but this is what my father says of our corn: "I have been a corn grower for nearly fifty years and our present crop is the best eared corn I have ever seen anywhere." You see, I have good and sufficient reason for feeling very grateful to the Aye Brothers, and will gladly recommend you to my many friends who realize the value of GOOD seed corn.—H. S. DUNCAN.

Seed Oats

KHERSON.

You should sow oats that are adapted to your locality and your land. If you have very rich land do not sow the long straw late maturing kind in the corn belt. What you need is some early maturing variety like the Kherson, and if you rotate your crop as you should, your land will soon be rich enough to grow from 85 to 125 bushels of corn to the acre, and then it is too rich for the late oats.

We would not advise sowing Kherson oats on land that will not produce 25 bushels of corn per acre. Your land should be seeded down to clover when it gets as thin as that. We have the purest Kherson oats in the United States today.

This variety of oats was introduced into this country from the Kherson district in Russia by the Nebraska Experiment Station, hence the name. This is without a doubt the best oats to sow in the corn belt, as it is early, does not rust or lodge, is a heavy yielder, weighs very heavy and as a nurse crop beats anything we have ever tried. The kernels are small, of a light golden color and very numerous on the stem and all stock like this oat better than any other variety, as it has a very thin hull. If you will compare these oats with any other variety by removing the hull, you will find that the Kherson has a larger amount of meat than most of the larger varieties.

We have shipped these oats to ten different states and have not had one word of complaint. Everyone has nothing but words of praise for them. Remember these oats come to you all re-cleaned and ready to put in the field.

Price: \$1.25 per bushel; \$1.15 per bushel for 10 bushels or more.

WHITE KHERSON.

Here we have a variety of oats that has all the good qualities of the Kherson and has a whiter color and lots of growers claim that it will outyield the Kherson oats. It will have to go some if it does. We did not grow this variety but we had it raised and the grower likes them very much. It might pay you to get a few bushels to try. We are always on the lookout for better varieties, and we know that this is a good oat and that you will like it.

Price: \$1.25 per bushel; \$1.15 per bushel for 10 bushels or more.

Other Grains

BARLEY.

Barley is a splendid nurse crop and on medium to rich land is a money maker. We would not advise sowing barley on poor soil but it is surely a profitable crop on rich soil.

The grain when ground makes splendid hog and cow feed. It stands up well and live stock like the straw. Sow from 1½ to 2 bushels to the acre on well prepared soil.

Price: \$1.80 per bushel.

SPRING RYE.

Spring Rye is becoming more popular every year as it should. It stands up well, can be sown real early in the spring or even when sown later it yields a big crop, 40 bushels per acre being common, according to reports, and at the present price of Rye you can see that it is a very profitable crop to grow. Some farmers even report a very much larger yield than 40 bushels, but we would advise sowing some Spring Rye.

Price: \$2.80 per bushel.

SWEDISH SPRING WHEAT.

Most farmers of our county gave up sowing spring wheat until this variety was introduced from Sweden, but since its introduction to this country many of our farmers prefer it to the winter varieties. Last year this wheat proved to be a very profitable crop. It stands up better than any other wheat we have ever seen. This is the best spring wheat we have any knowledge of and you can't afford to sow any other if you intend to sow spring wheat. Our wheat is re-cleaned and ready for the seeder.

Price: \$3.00 per bushel.

IMPROVED TURKEY RED WHEAT.

Write for our quotations and description of this wheat.

WINTER RYE FOR PASTURE.

Winter Rye when sown in the spring makes a fine pasture during the summer. When sown in the spring it does not head. It makes a better pasture than oats, wheat, etc., for it stands more abuse.

Price: \$2.50 per bushel.

BUCKWHEAT.

We handle two varieties, the Japanese and Silver Hulled Buckwheat and can send you nice clean seed at price list prices.

FLAX SEED.

Sow ½ to ¾ bushels per acre. Can furnish good clean seed at any time.

Price: See Price List.

SPELTZ.

Sow about 90 pounds per acre. Can furnish good clean seed at any time.

Price: See Price List.

Our Friends Are Enthusiastic About Our Seed Corn

WANTS CORN FOR SCHOOL BOYS.

Norfolk, Neb.

Aye Brothers, Blair, Neb.: Some time when you have time I wish you would send me a crate (one bushel) of your best \$6.00 corn. I want it to distribute among the High School boys of the city. With best wishes.—G. L. CARLSON.

7 ACRES YIELDS 640 BUSHELS.

Blair, Neb.

Aye Brothers, Blair, Neb.: The seed corn bought of you last spring suited me to a "T." From a field of seven acres I husked, this fall, a little over 640 bushels and as the field was close to the feed lots, the hogs, calves and chickens were in it more or less all summer and I believe I would have cribbed 700 bushels from the seven acres if the stock had been kept out.—CARL ROHWER.

BREEDERS' GAZETTE, CHICAGO.

Chicago, Feb. 11, 1916.

Aye Brothers, Blair, Neb.: The Nebraska Experiment Station has referred me to you as growers of or dealers in high grade, dependable alfalfa seed. I wish to purchase eight bushels for delivery in April or May to Valley Farm, Wayne City, Ill. I am interested there in 1,360 acres of land, much of which we shall eventually seed to alfalfa. I should like to have your best price on the quantity of seed indicated. We shall be in the market for an additional stock of seed in the fall.

Very truly yours,

DE WITT C. WING.

Associate Editor.

BEST HE EVER BOUGHT.

Decatur, Neb.

Aye Brothers, Blair, Neb.: The seed corn I bought of you last spring was the best seed corn I ever bought in my life. I raised over 75 bushels of corn per acre from the seed I bought and it is the heaviest corn I ever saw and the elevator man said it was the best corn brought to town. I got one cent more for it than the others did. I exhibited 10 ears at the Corn Show at Decatur and won 1st prize, getting \$10.00 in cash.

EMIL DIXON.

GETS A YIELD OF OVER 90 BUSHELS.

Blair, Neb.

Aye Brothers, Blair, Neb.: In the spring of 1908 I got ten ears of your Reid's Yellow Dent corn to plant an acre. I gave it ordinary cultivation and in the fall gathered between 90 and 100 bushels of good corn, while other kinds made 40 to 50 bushels. I selected the best ten ears and won first prize at the Blair Corn Show, which amounted to \$16.00 in cash, and a gilt worth \$25 to \$30. Besides this I got 25 or 30 bushels of good seed corn.

JOHN S. HOOKS.

BEST CORN IN THE COUNTY.

North Bend, Neb.

Aye Brothers, Blair, Neb.: We think the corn is the very best in the county, and a good many of my neighbors engaged seed for the coming year.

We have three standard varieties, but our huskers think Reid's outclasses anything we have, although we have a field of Silver Mine averaging 65 bushels per acre. In planting Reid's last spring, it was all listed and, by error, we covered same too deep and got a poor stand from one-half to two-thirds, but I think it will make 50 bushels. The quality is simply the best. It weighs like lead, and every ear is a seed ear in appearance. I have not tested as yet, but am going to select a few grains from 100 ears in different parts of the field to get a fair average test. There is one thing peculiar about Reid's. It seems to weigh about three bushels more to the load than other corn.

FRANK MCGINTY.

WON \$112.50 IN PRIZES FROM TEN EARS.

Blair, Neb.

Aye Brothers, Blair, Neb.: I want to tell you something about the corn we got from you. In the spring of 1907, I got ten ears of your Reid's Yellow Dent corn from you to plant an acre of corn. I planted it and gave it ordinary cultivation, saved some of the best ears and exhibited them at the Blair Corn Show in February and won first prize, winning \$20.00. The next year I won fourth, winning \$4.50 in money and a gilt worth \$25.00. My brother showed some and won second prize, winning \$5.00 in cash and a gilt worth \$30.00. Father won sixth, winning \$1.50.

This year I won second in single ear, winning \$6.00, and fifth in ten ear, winning \$5.00 in cash. My brother won sixth, getting \$4.00. Father won third in men's contest and got a Rayo Incubator valued at \$16.50. In full from the product of the first ten ears, we have won \$112.50 and a roomful of ribbons that money cannot buy.

HAROLD THERKELSON.

BEST INVESTMENT THEY EVER MADE.

Blair, Neb.

Aye Brothers, Blair, Neb.: We want to thank you for the splendid seed corn we got from you last spring. You will remember that we bought 2½ bushels of your selected seed for \$4.00 per bushel. We honestly believe that it was without a doubt the best investment we ever made. The seed grew perfectly and the yield was 80 bushels or better, and the best quality of corn that we ever put into our cribs, and as we feed about 500 head of cattle every season the quality of the feed has everything to do in putting on a finish to make toppers. We picked out a few ears and exhibited them at the National Corn Show at Omaha this year and we took third and fifth prizes on single ear and some judges thought that we ought to have had sweepstakes on our third prize ear. We also took third prize on twenty ears.

When you told us last spring before we bought our seed corn that almost every stalk would have an ear, we doubted it some, but it was the best eared corn we ever grew.—GRIMM BROTHERS.

Clover

COMMON RED CLOVER.

Everyone should sow common red clover in his small grain every spring to restore the fertility of the soil. It makes fine pasture, excellent hay, and yields from one to four bushels of seed per acre, and when the land is again planted to corn we have known an increase of 100 per cent the first year. Sow from 3 to 15 pounds per acre, but when sown with timothy from 5 to 8 pounds is enough. 60 pounds to the bushel. See Price List.

MAMMOTH RED CLOVER.

On very poor soil we would sow the Mammoth clover. It grows very rank and is a better soil restorer than the common red. It makes great pasture, but sometimes the hay is too coarse if sown on too rich soil. If you want a crop of seed you should pasture Mammoth clover until about June 1st and then take off your stock. Let it stand and the heads will form during the dry season. See Price List.

ALSIKE.

If you have low, wet land, sow Alsike clover. It will thrive on land that is almost a swamp and on places where red clover will not catch. It will in time dry out the land on which it is sown and sweeten it so that other clover can be grown. It is fine to sow on thin, sandy soil and on stony hillsides where red clover will not catch. The seed is very small and it only requires from 4 to 7 pounds to sow an acre. Alsike certainly makes a fine pasture for all kinds of stock. See Price List.

WHITE CLOVER.

White clover is the hardiest of all clovers and is a good kind to sow on lawns and on pastures. It does not need a lengthy description because it is so familiar to everyone. See Price List.

ALSIKE AND TIMOTHY.

During the last year or two we have been selling an awful lot of the above mixture, and if you have low or damp land we don't know of a better combination than alsike and timothy, and as a rule we can offer you the two combined at a cheap price, for the reason that they are threshed together, and the seeds being the same size, they cannot be separated, so we will sell the two together. The proportions of seed are about one-fourth to one-third alsike and the balance timothy. See Price List for Prices.

SWEET CLOVER.

A few years ago Sweet Clover was considered by most people to be a weed, but now it is grown in every state in the Union for hay, pasture, seed and for renewing the soil. Can be sown almost any time, but seems to do best when sown in the early spring with or without a nurse crop. It is a biennial, like Red Clover; that is, it dies at the end of the second year after sowing. There are two varieties that have any value the White Biennial and the Yellow Biennial. At present the White Biennial is by far the most popular, although the Yellow Biennial has a lot of friends. The Annual Yellow may be of some value, but we would not advise anyone to sow it. For prices see Price List.

ALFALFA SEED.

Alfalfa is the most valuable of all the grasses and there is not a state in the United States that cannot grow alfalfa. It is a perennial and is very hardy. In the last 20 years we have only had one winter severe enough to kill it.

Can be sown in spring with or without a nurse crop. Lots of agricultural writers advise to not sow alfalfa till all danger of frost is over in the spring, but some of our most successful alfalfa growers sow as early as possible in the spring with their small grain, and sometimes after cutting the grain, cut a nice big crop of hay the same season, and the following

years cut from three to four crops. By the above method you don't lose the use of your land a single season.

Alfalfa leaves are worth, ton for ton, as much as bran, and three to seven tons can be grown from an acre.

There is nothing that equals a nice patch of alfalfa for a hog pasture, but have a patch large enough so the hogs cannot eat it down, and cut the alfalfa for hay.

Sow from 12 to 20 lbs. per acre. For prices, see Price List.

Other Grass Seeds

TIMOTHY.

We always sow timothy with our common red clover. When the clover dies, which it does the second year, the timothy is at its best. We mix our seed with the clover when we sow it. Timothy makes fine hay and is splendid for pasture. We have some very choice seed to offer you this year. See Price List.

KENTUCKY BLUE GRASS.

Grows almost anywhere and is sown for lawns and pastures. No better seed than Kentucky Blue Grass for lawns. We have some fine seed that is clean and new. See Price List.

ENGLISH BLUE GRASS (Meadow Fescue).

An excellent pasture grass and succeeds almost anywhere on low ground and high soils. It is very early in the spring and stays green late in the fall. See Price List.

RED TOP.

Here is a grass that is at home and at its best in low, swamp places and thrives there. It is not a hard grass like timothy, and when put up as hay makes excellent hay for cattle. A mixture of Alsike, Blue Grass and Red Top makes excellent pasture on bottom lands.

See Price List.

BROME GRASS (Bromus Inermus).

Is a native of Europe and Asia and is a hardy perennial grass. It is one of the most valuable grasses that has been introduced into this country. It is very early in the spring and stays green very late in the fall. There is no grass that will stand as much abuse and drouth as Bromus. Can be cut two or three times a year and all kinds of stock like the grass and hay. Sow 20 to 25 pounds to the acre either in the early spring or fall. See Price List.

ORCHARD GRASS

A valuable grass for pasture and hay. It is early and splendid for permanent pastures, as it stays green late in the fall. Does well in shady places like groves, orchards, etc; 14 pounds to the bushel. See Price List.

SUDAN GRASS

Sudan Grass is an annual and belongs to the sorghum family. It originally came from Sudan, Africa. It is claimed it will stand drought well. Sudan Grass has beyond a reasonable doubt solved the hay question, for it grows readily in all sections of the country, and as it matures in less than 90 days, it can be sown whenever there is danger of a shortage in the hay crop. Sow about 15 to 20 lbs. broadcast if wanted for hay and harvest like millet. If wanted for seed sow 3 to 6 lbs. per acre in drills 3 feet 6 inches apart and cultivate like corn. For prices see Price List.

CANE SEED.

As a catch crop there is nothing equals cane for hay. It can be sown as late as July and no matter how dry a season you may have you can depend upon cane to make plenty of feed. Yields enormously. It makes the finest kind of hay to winter horses on.

See Price List.

WHITE KAFIR CORN.

Kafir Corn drilled in at the rate of 5 to 10 pounds per acre and cultivated like corn will yield from 40 to 50 bushels to the acre. It is valuable for all kinds of stock and especially chickens. It grows somewhat as cane and heads out big bushy heads made up of white grains like cane.

See Price List.

DWARF ESSEX RAPE.

Rape is an annual and belongs to the cabbage family. When sown early in the spring it furnishes a great deal of green feed all summer for the hogs and is excellent for that purpose. Can be sown in the cornfield at the last cultivation and will make a lot of feed for the hogs, sheep or cattle when they are turned into the stalks when the husking is over.

See Price List.

FETERITA.

Feterita is similar to White Kafir Corn except that it stands drought better and is 30 to 50 days earlier. Of the non-saccharine sorghums it has become the most popular.

See Price List for prices.

MILO MAIZE.

For grain drill in rows 3 feet apart, 3 to 6 lbs. per acre. For fodder sow 3/4 to 1 bu. per acre. See Price List.

NEW ERA COW PEAS.

This is the earliest cow pea known and is the best for the northern states. Fine fertilizer as it puts nitrogen into the soil. Can be

sown after the early oat crop is taken from the soil and will fertilize your soil for next year's crop and at the same time give you a lot of feeding stuff. See Price List.

GOLDEN MILLET.

We have a large quantity of home grown millet which is very choice. Our Golden Millet will make from four to five tons of hay per acre and if left for seed will yield as high as 60 bushels. Millet seed makes as fine a chick feed as you can find, and if you grow chickens it will pay you to raise Golden Millet for seed. It can be sown as late as July on places where other seed has been lost or washed out. Besides it makes an excellent fodder.

See Price List.

BROOM CORN.

Some farmers make a lot of money out of broom corn. Can be grown anywhere where good corn grows and should have similar cultivation. See Price List for prices.

SUNFLOWER.

A small patch of sunflowers will make an immense amount of chicken feed. They like it better than most grains and it is good for them. Be sure to plant a small patch of sunflowers. See Price List.

Can also furnish the following seeds:

- Common Millet.
- New Siberian Millet.
- Japanese Millet.
- Hog or Broom Corn Millet.
- Hungarian Millet.
- Early Fortune Millet.
- Pearl Millet or Pencillaria.
- Teosinte.
- Bermuda.
- Perennial Rye Grass.
- Winter Emmer.
- Soy Beans.

See Price List for prices.

**AGRICULTURAL EXPERIMENT STATION,
UNIVERSITY OF NEBRASKA.**

Lincoln, Neb.

Aye Brothers, Blair, Neb.: Your letter of the 31st ult., at hand, and sample of Kherson oats. This looks like real Kherson, all right. I think there will be quite a demand for the seed this spring, and will be glad to refer inquiries to you. E. G. MONTGOMERY, (Prof. Exp'l. Agronomy).

Garden Seeds

We like the Garden and Flower Seed business. Probably the reason for this is that our seeds have given such good satisfaction, but why shouldn't they? We handle only the best that can be grown or that money can buy. Some of the largest and best growers of garden and flower seeds furnish us with fresh seed every year. It is true we don't ask as much for our seeds as some seedsmen, but we don't need to. We live in a town of 3,000 inhabitants and our taxes are not as high as in some of the larger towns; we pay no rent and are not trying to get rich in a few years, but we want our business to gradually increase as the cost of living increases, and we feel sure it will if we can only get new customers to try our seeds one year. We know you will be pleased with them and become a regular customer.

We pay postage on all garden and flower seed except as otherwise specified in catalog.

Send to us for your garden and flower seeds and we believe that you will never regret it. It is impossible to get better seed from any seed house, no matter what you pay. Of course, we don't want you to think that no one else sells good seeds, for we know of lots of good reliable seed houses handling seeds that come from the same growers that we get our seeds from.

Our business is now large enough to justify us in reducing prices on most all of our garden seeds and nursery stock. We want a large volume of business, for the more business we have the cheaper we can sell. We want to sell enough so we can do our own importing and buy in car and ship loads. You will help yourself by helping us.

All prices are subject to change without no-

tice, but we believe that the prices following will remain during the whole season.

It is reported that packets of garden seed will be increased in price to 10 cents per packet by a number of seed dealers, but we will keep our price at 5 cents per packet on most varieties, but all of our packets may not have pretty illustrations on them, but the seed will be just as good.

We are not going to list every variety of garden seed but only enough of the best so that you can have a selection. Neither do we think it necessary to describe and illustrate standard vegetables. We also take it for granted that most people who send for Seed Catalog know how to sow and take care of a garden and we are not going to give directions on how to plant garden seeds and cultivating and harvesting your crop.

Following is a list of garden seeds we have and the prices. It is easy to order from.

Gordon, Neb.

Aye Brothers, Blair, Neb.: I have used quite a bit of your Germikil in cases of roup, cholera, sore eyes and other poultry troubles and it never failed to cure them. I have tried other remedies on the same cases and it did not cure them, so I think Germikil is just fine. My chicks are as healthy as hogs since I got rid of those horrible troubles.—GUY R. TRIPLETT.

Flowers

We have marked the Annuals with the letter A, and the Perennials are marked with the letter P. The annuals bloom and die the first year. The perennials live and bloom a number of years.

Trees, Shrubs, Vines, Bushes and Plants

Make the Home Grounds Beautiful and Profitable

A farm or a town home is not complete without some nice trees, shrubs, plants, etc., and the cost is small compared to the profit and pleasure there is in a nice orchard, vineyard, strawberry beds, and ornamental trees and shrubs planted in the right place.

Don't wait until next year or some future time to set out trees or plants, but do it this season and in a short time you can pick fruit from your own trees and vines.

We are in position to handle our nursery better than ever before. All of our stock is properly packed so that it will get to you in the best of condition for planting. Send your order in early and we will ship at proper time.

This catalog is our only agent and by looking over our prices you will find they are cheaper than sold by most reliable agents and our quality is the very best. Purchaser pays transportation charges.

GUARANTEE: We guarantee our trees, plants and nursery stock to arrive at destination in good shape and that our stock has been inspected by the State Entomologist and is free from San Jose Scale and other dangerous insects or plant diseases. A certificate goes with each shipment.

To those of our customers who are not familiar with varieties of fruit we would urge upon them to order varieties marked with a star. We know they are good for the average planter and will give good results. Of course we have varieties for those who wish still something different and have listed them.

We wish again to call your attention to the fact that all of our stock is the very best and not odds and ends that are usually thrown away by some nurserymen and then sold at some ridiculously low price. It costs money to produce high class stock and our price is in line with stock offered.

APPLES.

We have the following varieties to select from:
Summer Apples. Chenango, (*Duchess), Early Harvest, Golden Sweet, (*Liveland Raspberry), Res-Astrachan, Red June, Sweet June (*Yellow Transparent).

Autumn Apples. Snow, Longfield, Maiden Blush, Peerless, Rambo, Ramsdell Sweet (*Wealthy).

Winter Apples. Ben Davis, Black Ben Davis, (*Delicious), Gano, (*Grimes' Golden), Janet, (*Jonathan), King David, Mammoth Black Twig, Northern Spy (*N. W. Greening), (*Stayman's Winesap), Talman Sweet, *Winesap, Wolf River, (*York Imperial).

	Each	Per 10	Per 100

Tilden, Neb.
Aye Brothers, Blair, Neb.: I had some cockerels in an extra coop and they got Roupy. Here I used the Germikil with great success.

—EMIL STUENKEL.

Schofield, Hawaiian Islands.
Aye Brothers, Blair, Neb.: Received your sample of Germikil and can truly say it will do as you say.

—JAS. HAYNES.

Lincoln, Neb.
Aye Brothers, Blair, Neb.: I found Germikil O. K. Not alone for poultry, but on barb-wire cuts.

—A. H. SMITH, Sec'y Nebraska State Poultry Ass'n.

The above is a picture of our new poultry house on our poultry farm adjoining Blair. It is 400 feet long, 20 feet wide, is electric lighted, has three hydrants, root cellar, store room for feed and loft for straw and is probably one of the most up-to-date big poultry houses in America.

Pure-Bred Poultry

We have been in the pure bred poultry business over 25 years and during that time have sold thousands of birds and tens of thousands of eggs to customers all over the United States, Canada and Mexico and most of our customers come back year after year which proves that we must be giving satisfaction.

A quarter of a century ago we started selling Barred Rocks and the demand for other varieties has increased until today we are selling almost fifty varieties, and are one of the largest shippers in the West.

Over 200 different families are helping us produce enough poultry and eggs to supply the present demand.

We have the largest salesroom for pure bred poultry in the state. It takes over 225 individual coops in which to exhibit our poultry for the trade.

Adjoining Blair we have a 14-acre poultry farm with a building 400 by 20 feet, probably the largest in the state. It is up-to-date in every respect; it has three hydrants for city water, electric lights, double walls, swinging doors, open front.

We believe we are in better position than ever to take care of our trade. We have been advertising Blair as the "Seed Corn Center of the World" and if the poultry business keeps on it can be truly called the "Poultry Center of the World" also.

As we have almost 50 varieties to select from it should not be hard for you to make a choice. We are handling most of the popular breeds. If you send in an order for either poultry or eggs we will do our very best to please you.

We don't sell as cheap as some or as high as others, but we believe we are giving better value for the money than you can get anywhere else. We guarantee to send you good fresh eggs and that the eggs are fairly fertile. We don't guarantee a chick from every egg or that every chick will grow into a prize winner. If you get a poor hatch and we are to blame, we will duplicate infertile eggs for half price. If you are not satisfied with the stock we ship you, you can return it within three days and we will refund your money, less express charges.

Send cash with order, and if anything is not exactly as we say it is, return it and get your money back. Isn't that fair?

From present indications it seems that there will be a shortage of breeding stock before the season is over. On account of the high price of feed lots of specialty breeders have reduced their flocks and some of the people who have been raising poultry for us have sold their young stuff during the summer. We are at present fairly well supplied with most of the popular varieties and can fill orders promptly and usually we get orders out within a day after we receive them. We will be short on some of the less popular varieties, but can fill orders on most of them.

We have not raised prices as high as some breeders or probably as much as we should but we sell thousands every year and we don't need to. Hens are selling for \$12.00 to \$20.00 a dozen at public sales and higher prices are predicted, and it looks like a good buy, for eggs and all kinds of market poultry will surely be a good price next season. A six pound hen is worth \$1.30 on the market and a 9 pound cockerel brings around \$2.00.

Our prices are cheap this year compared to prices of other commodities. If you can, get in your orders early and we will select as good as we can for the money you send.

We will do our best to please you and we think we can.

Price of Poultry, Turkey, Ducks and Geese will run about as follows for good breeding stock.

Cocks and Cockerels of all Varieties.

\$3.00 to \$3.75 each for good birds. \$5.00 each for extra good birds. \$2.75 each for a little later hatched or slightly frosted comb birds.

- Hens and Pullets of All Varieties.**
\$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
- Geese.**
Ganders \$5.00 to \$6.00 each. Geese \$4.00 to \$6.00.
- Ducks.**
Drakes \$3.50. Ducks \$3.00 and Trios \$8.50.
- Turkeys.**
Gobblers \$7.00 to \$10.00 each. Hens \$6.50 to \$8.00.
All poultry is sent by express but eggs for hatching can be sent by Parcel Post or Express.

What Some of Our Friends Say About Our Poultry

HATCHED WELL.

Aye Brothers, Blair, Neb.: The setting of eggs I got from you were all that could be desired. I hatched ten chicks and have all of them at this date. It was generous treatment you gave me.—HENRY VOGEL.

OUR STOCK SELLS EGGS FOR OTHERS.

Aye Brothers, Blair, Neb.: The cockerels have developed finely and we have orders for nearly 400 eggs already, due largely to the quality of those birds.—HENRY SHARP.

Aye Brothers, Blair, Neb.: I have raised 108 chickens from the two hens.—MRS. JAS. KINNEY.

Aye Brothers, Blair, Neb.: I am sending for another setting of the Barred Plymouth Rock chickens as I got a setting last year, and had such good results. I got 12 chicks out of the 15 eggs and raised the whole flock, six pullets and six cockerels, and was so proud of my flock until the neighbor's dog killed two of my best cocks, leaving me only four. So I decided to send for more eggs, hoping to have the same good luck this year.—MRS. CHAS. HEAGNEY.

Aye Brothers, Blair, Neb.: I was well pleased with the hatch and chickens I got from the eggs I received from you two years ago.—MRS. AMANDA ADAMSON.

BARRED PLYMOUTH ROCKS.

The Barred Plymouth Rocks are without doubt the most popular fowl in America today. They do well anywhere. They are hardy, grow rapidly, pullets lay early and they mature early and are a splendid table fowl.

Show birds a matter of correspondence. We are very strong on Barred Rocks.

Price:

Cocks and Cockerels \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels \$5.00 each for extra good birds.

Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets \$2.50 to \$3.25 each. Later hatch \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

WHITE PLYMOUTH ROCKS.

White Plymouth Rocks are just like Barred and Buffs with the exception of color, which is pure white. From the time of its introduction it came to the front very rapidly and today is one of the leading varieties.

Price:

Cocks and Cockerels \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels \$5.00 each for extra good birds.

Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and pullets \$2.50 to \$3.25 each. Later hatch \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

CHICKENS VERY LARGE.

Naper, Neb.

Aye Brothers, Blair, Neb.: We are well pleased with the chickens. They are fine and are half again as big as ours, and we had heavy fowls we thought. Have been raising Plymouth Rocks for the last eight years.—HANS SIEH.

BUFF PLYMOUTH ROCKS.

The Buff Plymouth Rocks have the same shape at the Barred and the same characteristics, but are Buff in color.

We have some fine Buffs to offer. Some people prefer the Buff to the Barred on account of their color.

Price:

Cocks and Cockerels \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels \$5.00 each for extra good birds.

Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 50; \$9.00 per 100.

PARTRIDGE PLYMOUTH ROCKS.

Shape is the same as a Barred Rock and color is that of a Partridge Cochinchina.

Price:

Cocks and Cockerels.....\$3.50 to \$5.00 each.

Hens and Pullets \$2.75 to \$4.00 each.

Eggs, \$2.50 per 15; \$4.50 per 30.

COLUMBIAN PLYMOUTH ROCKS.

Shape is the same as Barred Rocks but color is like the Light Brahmas.

Price:

Cocks and Cockerels \$3.50 to \$5.00 each.

Hens and Pullets \$2.75 to \$4.00 each.

Eggs, \$2.50 per 15; \$4.50 per 30.

SILVER LACED WYANDOTTES.

Are sometimes called the beauty breed. They are hardy and mature early, good layers and, in fact, are all around good chickens.

Price:

Cocks and Cockerels \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels \$5.00 each for extra good birds.

Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 30; \$9.00 per 100.

WHITE WYANDOTTES.

The plumpest looking fowl and one of the most popular is the White Wyandotte. They are becoming a favorite with lots of chicken raisers and there is a big demand for them. They are about a pound lighter than the Plymouth Rocks.

Price:

- Cocks and Cockerels \$3.00 to \$3.75 each for good birds.
- Cocks and Cockerels \$5.00 each for extra good birds.
- Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
- Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
- Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

GOLDEN WYANDOTTES.

Golden Wyandottes are a very rich colored bird. They have rose combs, yellow skins and legs; they are splendid layers the year around; chicks are hardy, grow fast and mature early.

Price:

- Cocks and Cockerels \$3.00 to \$3.75 each for good birds.
- Cocks and Cockerels \$5.00 each for extra good birds.
- Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
- Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
- Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

PARTRIDGE WYANDOTTES.

Wyandotte in shape and colored like the Partridge Cochins.

Price:

- Cocks and Cockerels \$3.50 to \$5.00 each.
- Hens and Pullets \$2.50 to \$4.00 each.
- Eggs, \$2.50 per 15; \$4.50 per 30.

COLUMBIAN WYANDOTTES.

Wyandotte shape and markings of the Light Brahmans. Price for stock and eggs are same as for Partridge Wyandottes.

BUFF WYANDOTTES.

Have Wyandotte shape but are Buff in color. Price for stock and eggs the same as for Partridge Wyandottes.

**SINGLE COMB REDS.
(Rhode Island Reds)**

The Rhode Island Reds have become very popular in a very short time and they have lots of merit. They are one of the hardiest fowls grown, are quick growers, mature early, pullets lay early and are great rustlers, and as a table fowl cannot be excelled.

Rhode Island Reds have a red plumage and are very beautiful.

Price:

- Cocks and Cockerels \$3.00 to \$3.75 each for good birds.
- Cocks and Cockerels \$5.00 each for extra good birds.
- Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
- Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
- Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

**ROSE COMB REDS.
(Rhode Island Reds)**

The same as S. C. R. I. Reds except these have rose combs.

Price:

- Cocks and Cockerels \$3.00 to \$3.75 each for good birds.
- Cocks and Cockerels \$5.00 each for extra good birds.
- Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
- Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
- Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

Crawford, Neb.
Aye Brothers, Blair, Neb.: I am much pleased with the chickens and will try and get you another order. They are certainly fine birds.—MRS. A. C. JONES.

LIGHT BRAHMAS.

The Light Brahma is the largest fowl on earth and are a splendid chicken for town lot, as they stand confinement well.

Price:

Cocks and Cockerels \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels \$5.00 each for extra good birds.

Cocks and Cockerels \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

BUFF ORPINGTONS.

The Buff Orpingtons have become very popular in the last few years, and they are a good variety, too. They have deep, full bodies, well rounded; quiet disposition and the females make fine mothers.

They have clean legs and they make a fine general purpose fowl. Buff Orpingtons have good weight and we have some very big, choice stock.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

ANOTHER ONE.

Aye Brothers, Blair, Neb.: The cockerel we ordered of you arrived in good shape, and I wish to say we are well pleased with it.—MRS. W. J. TUBBS.

Arvada, Wyo.

WHITE ORPINGTONS.

Same as Buff except in color. The White Orpingtons have been attracting a great deal of attention at some of our biggest poultry shows and they have commanded very high prices.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

BLACK LANGSHANS.

The Black Langshan is a beautiful black, especially beautiful in the sunshine.

Langshans have single comb, are quite tall, loose feathers, large size, very active for a big chicken, feathers on their legs and stand cold weather remarkably well. They are good winter layers.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

VERY WELL PLEASED.

Monowi.
Aye Brothers, Blair, Neb.: In regard to the eggs I got from you, the first ones I hatched nineteen chicks and all are promising. Three roosters, the rest hens. I am very well satisfied with them and think you did the honest thing by me.—MRS. H. W. MASDEN.

Bremen, Kan.

Aye Brothers, Blair, Neb.: I do not have any trouble with Roup among my chickens since I have fed your Germikil.—WM. RABE.

WHITE LANGSHANS.

These fowls are very handsome. They are very hardy. They attain maturity quite early; are excellent setters and mothers. They have white flesh and skin. They are an excellent table fowl. All the characteristics of the Black Langshans except color, which is white.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.
 Cocks and Cockerels, \$5.00 each for extra good birds.
 Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
 Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
 Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

PARTRIDGE COCHINS.

Are very hardy, easy to raise, very beautiful, stand confinement well; good layers and fine setters and mothers.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.
 Cocks and Cockerels, \$5.00 each for extra good birds.
 Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
 Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
 Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

SINGLE COMB WHITE LEGHORNS.

The S. C. W. Leghorn belongs to the Mediterranean Class. They are the largest of the Leghorn family and are regular egg-machines. Some of the largest exclusive egg farms in the U. S. have only White Leghorns in their yards. They are not a large fowl.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.
 Cocks and Cockerels, \$5.00 each for extra good birds.
 Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.
 Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.
 Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

ROSE COMB WHITE LEGHORNS.

The Rose Comb White Leghorn has the same characteristics as the S. C. White, except the comb, which is a rose comb.

Prices for stock and eggs the same as for Single Comb White Leghorns.

SINGLE COMB BROWN LEGHORNS.

The Brown Leghorn is like the White, except in color. The Brown Leghorn is a very beautiful chicken and as a hustler, can't be beat, and the pullets begin laying at four months of age and if properly fed, will continue to lay all winter.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

SINGLE COMB BUFF LEGHORNS.

They are great layers, equal to any if not superior to most other varieties, and in size they rank with other Leghorns; they are small eaters and bear confinement well. Our stock is of the best strains in the country.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

Stratton, Neb.
 Aye Brothers, Blair, Neb.: Received cockerel all right; am well satisfied with him; never saw a cockerel that had as nice a disposition; my little girls feed him out of their hands; doesn't act like a stranger. Haven't got to show him to many on account of bad weather. My husband said that when he got him from the depot there was some who saw him and thought he was fine.—MRS. W. G. EMERY.

ROSE COMB BROWN LEGHORNS.

Same characteristics as the S. C. White Leghorns except the color and comb.

Prices for stock and eggs the same as for the Single Comb White Leghorns.

ROSE COMB BUFF LEGHORNS.

Same characteristics as Single Comb Buff Leghorns except they have a Rose Comb.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.25 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

MOTTLED ANCONAS.

Color is a lustrous greenish black with about one feather in five tipped with white. They are great hustlers and good layers.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

ALL RIGHT AND SATISFIED.

West Point, Neb.

Aye Brothers, Blair, Neb.: The cockerels got here all right. I am satisfied with them; they suit me in size and color.—FRANK H. WORTMAN.

Poca, Neb.

Aye Brothers, Blair, Neb.: We have been using Germikil right along and have found it to be the best remedy in the poultry yard. We have no sick chickens any more.—HENRY CONRADY.

SINGLE COMB BLACK MINORCAS.

The plumage is a greenish metallic black in color. They have a large comb, white earlobes, legs a slate color. Larger than the Leghorns and they lay very large eggs.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

ROSE COMB BLACK MINORCAS.

Are like the S. C. Black Minorcas except they have a rose comb and are preferred by some people on account of their low comb.

Prices for stock and eggs the same as the Single Comb Black Minorcas.

SINGLE COMB WHITE MINORCAS.

The White Minorcas chicken has all the characteristics of the Black Minorcas except color which is white. They are a handsome fowl.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

SILVER SPANGLED HAMBURG.

One of the most beautiful varieties in existence. Everybody admires them and they are great layers but non-setters.

Price:

Cocks and Cockerels, \$3.00 to \$3.75 each for good birds.

Cocks and Cockerels, \$5.00 each for extra good birds.

Cocks and Cockerels, \$2.50 to \$2.75 each for good birds, but later hatch or slightly frosted combs.

Hens and Pullets, \$2.50 to \$3.75 each. Later hatch, \$2.00 to \$2.50 each.

Eggs, \$1.75 per 15; \$3.25 per 30; \$5.00 per 50; \$9.00 per 100.

HOUDANS.

We usually have a few cockerels to offer at around \$3.75 each and pullets at \$2.50 each. Eggs at \$2.50 per 15.

BLUE ANDALUSIANS.

We usually have a few cockerels to offer at around \$3.75 each and pullets at \$2.50 each. Eggs at \$2.50 per 15.

BUFF COCHIN BANTAMS.

We have only one breed of Bantams. The Buff Cochins are, we think, the most attractive of all Bantams, and because of their shape are much more pleasing to children. They are much tamer than any other Bantams and are great pets.

Price:

Cockerels \$2.50 each, hens \$1.75; pairs \$4.00. Eggs \$1.50 per 15.

PEARL GUINEAS.

Guineas are of a wild disposition and their meat is equal to some of the best wild game. They are quite profitable.

Price:

Cockerels \$2.00, hens \$1.75. Eggs \$1.50 per 15.

WHITE AFRICAN GUINEAS.

Can furnish a few males and females and also eggs. Price same as Pearl Guineas.

TOULOUSE GEES.

Are gray in surface color and under part of body a shade lighter. They are very large, sometimes weighing 25 pounds each. They are hardy, lay well and are easy to raise.

Price:

Ganders \$5.00 to \$6.00 each. Geese \$4.00 to \$6.00. Trios \$13.00 to \$18.00. Eggs \$2.75 per seven. \$5.00 per fourteen.

WHITE EMDEN GEES.

This is a very profitable white goose to raise. Prices for stock and eggs same as for Toulouse Geese.

Blair, Neb.

Aye Brothers, Blair, Neb.: Last winter I obtained a box of your Germikil and during the severe weather our chicken-house become Rousy. We used the Germikil promptly and they quickly got well.—CHAS. H. ROBERTS.

PEKIN DUCKS.

The Pekin Duck is very popular and profitable. They are creamy white in color, are very deep bodied and grow very rapidly and are very easy to raise, as they are not subject to many of the diseases poultry is heir to.

Price:

Drakes \$3.00 to \$4.00 each. Ducks \$2.50 to \$3.50 each. Pairs \$5.50 to \$7.00. Trios \$8.00 to \$11.00. Eggs \$1.75 per 11; \$4.50 per 30.

ROUEN DUCKS.

Are a very hardy breed and are considered one of the most profitable varieties.

Prices for stock and eggs same as for Pekins.

INDIAN RUNNER DUCKS.

Are the Leghorns of the duck family. Fawn and white. Duck eggs are fine both for the table and for cooking, excel the hen egg in most cases, especially for scrambled eggs and custards. When it is possible to get an egg a day for weeks at a time we have a strong argument for raising more ducks. Their meat is very tender and juicy.

Prices for stock and eggs same as for Pekins.

WHITE INDIAN RUNNER.

Ducks are like the fawn and white except that they are white in color.

Price for stock and eggs same as for Pekins.

MUSCOVY DUCKS (Colored).

The Muscovy Ducks are one of the good varieties to have around. They don't make any noise and lay a large number of eggs. Stand confinement well.

Prices for stock and eggs same as for Pekins.

THANKS US FOR NICE BIRDS.

Beatrice, Neb.
Aye Brothers, Blair, Neb.: Received the chickens which you sent me and should have written sooner. I wish to thank you for sending me such nice birds, especially the Rock cockerel. He is certainly fine and I am very much taken up with the Orpington pullets.—A. L. MOSCHELL.

WHITE HOLLAND TURKEYS.

Here is the ideal turkey for those who have limited space. They seldom wander away from home. Price same as for Mammoth Bronze Turkeys.

BOURBON RED TURKEYS.

A new variety of Turkey that seems to take well. Price for stock and eggs the same as for the Mammoth Bronze.

MAMMOTH BRONZE TURKEYS.

The Bronze is the largest and most popular turkey. Their plumage is a rich metallic bronze. They are great layers, some laying as high as from 80 to 100 eggs in a season.

Price:

Toms \$8.00 to \$12.00 each; hens \$6.50 to \$8.00 each. Eggs 9 for \$3.00; 18 for \$6.00.

POULTRY BOOKS TO BEGINNERS THAT ARE HELPFUL.

- No. 1 Successful Poultry Keeping.....\$1.00
- No. 2 Eggs and Egg Farms..... .50
- No. 3 Poultry Houses and Fixtures..... .50
- No. 4 Artificial Incubators and Brooding..... .50
- No. 5 The Chick Book..... .50
- No. 6 Turkeys..... .75
- No. 7 Ducks and Geese..... .75

The above books will answer almost any question on handling poultry.

Elmo, Mo.

Aye Brothers, Blair, Neb.: The roosters I got from you are doing fine. Everybody that sees them wants to know where I got them. I don't get enough eggs to supply the demand.—NED GLASSFORD.

Gordon, Neb.

Aye Brothers, Blair, Neb.: I consider Germikil an excellent remedy for both turkeys and chickens.—MRS. LOREN CASE.

Schofield, Hawaiian Islands.

Aye Brothers, Blair, Neb.: Received Germikil. I can truly say it will do as you say.—JAMES HAYNES.

Pleasantville, Iowa.

Aye Brothers, Blair, Neb.: Can't get along without Germikil.—MRS. DAN BANE.

Blair, Neb.

Aye Brothers, Blair, Neb.: Germikil is excellent as a preventive of disease among poultry.—LYLE R. DEXTER.

O'Neill, Neb.

Aye Brothers, Blair, Neb.: I give Germikil the credit for the healthy condition of my fine flock of 400 chickens.—S. L. THOMPSON.

Blair, Neb.

Aye Brothers, Blair, Neb.: I have used several boxes of Germikil this summer and have raised over 400 Buff Orpingtons and have not had one case of White Diarrhoea. I never had chickens do so well.—JOHN BALLARD.

Spalding, Neb.

Aye Brothers, Blair, Neb.: The greatest remedy (Germikil), in the world for chickens.—JOHN BLOOM.

Malmo, Neb.

Aye Brothers, Blair, Neb.: Send me four boxes of Germikil, as I cannot be without it.—JOS. HOOFEK.

Rouse, Colo.

Aye Brothers, Blair, Neb. I have used your Germikil this summer and find it the best remedy for Roup and White Diarrhoea in baby chicks that is made. I raised over 500 chicks without a sign of these diseases.—P. B. HART.

Plymouth, Neb.

Aye Brothers, Blair, Neb.: I want three boxes of Germikil; one for my aunt, one for my mother, and one for myself.—MRS. HENRY KNOSTER.

Gordon, Neb.

Aye Brothers, Blair, Neb.: Your Germikil is sure fine, as I have now tried it on a case of sore eyes and it cured it.—GUY H. TRIPLETT.

Blair, Neb.

Aye Brothers, Blair, Neb.: Germikil is excellent as a preventive of diseases among poultry.—LYLE R. DEXTER.

"BEST I EVER GOT."

Bellwood, Neb.

Aye Brothers, Blair, Neb.: After we planted your corn we had a hard packing rain; it made the ground awful hard; many farmers had to replant, but your seed corn came up in fine shape. Yours truly, FRANK D. ADAMS.

DONE VERY WELL—THE BEST CORN THEY HAD.

Wisner, Neb.

Aye Brothers, Blair, Neb.: Your seed corn did very well—the best corn we had. It made 74 bushels to the acre, at least. It is certainly fine corn, and another thing, it is so easy to pick. Yours very truly, ARNOLD VANJOHN.

15 TO 20 BUSHELS MORE TO ACRE.

New Liberty, Iowa.

Aye Brothers, Blair, Neb.: The oats yielded from 15 to 20 bushels more per acre than other oats. It grows pretty good in this country. Last year I had about 45 bushels per acre.—HY HAUSCHILD.

HEAVIEST HE HAS EVER SEEN.

Blair, Neb.

Aye Brothers, Blair, Neb.: My Kherson Oats made 63 bushels per acre and are the heaviest I ever saw grown, and I am going to sow 50 acres next year.—THOMAS CHRISTIANSEN.

10 BUSHELS MORE OATS TO ACRE THAN LATE OATS SOWN.

Dow City, Iowa.

Aye Brothers, Blair, Neb.: The oats I got of you turned out about 10 bushels more to the acre around here than the late oats sown here. Parties with early champion oats report a good yield. My Kherson oats turned out about 36 bushels by measure. Very respectfully yours, L. E. PORTERIN.

For Man, Beast
or Fowl

GERMIKIL

For Man, Beast
or Fowl

WE believe to be the greatest remedy in the world for roup, cholera, bowel trouble, sore head, white diarrhoea in fowls; cuts, sores, bruises, wounds, dandruff, itching, etc., for man; barb wire cuts, sore shoulders and necks, etc., for horses. Good alike for man, beast or fowl.

AS A PREVENTIVE OF ROUP.

And all poultry diseases dissolve a number of tablets of Germikil in a fruit jar of water and every day or two put enough of this solution in your chickens' drinking water to color it a claret wine red color, and your fowls will doctor themselves. We are practical poultrymen, having been in the business twenty-five years and we find that Germikil is the best all around remedy on the market for roup, cholera, bowel trouble, cuts, burns, old sores, etc.

YOUR MONEY BACK if this remedy fails to do what we claim for it. Remember we guarantee each and every box. We honestly believe that if each and every poultry raiser would constantly use Germikil there would be very little disease in the poultry yard. And the nice thing about this remedy is that it is so little trouble to use it.

Don't wait until your fowls are sick for it is easier to prevent disease than to cure it. Always use Germikil to prevent all fowl troubles, for it is the best medicine in the world to keep chickens healthy, as it destroys the germs before they get into the system.

AS A CURE.

Dissolve enough tablets in water so as to make the water a dark red color and apply the solution to the afflicted parts.

If hands are stained when applying a strong solution of Germikil **DON'T** use soap to remove the stains. Use a weak solution of oxalic acid or just lemon juice to remove stains. Don't use any other remedies in connection with Germikil. We have lots of satisfied customers of Germikil and we know that **YOU** can get results by using Germikil.

Germikil has been used three years at the Nebraska State Fair in the poultry department and two years at the Nebraska State Poultry Show and the secretary of both says the results have been good.

Keep a box on hand all the time.

Results are what you are after and the judicious use of Germikil will help you. The price of Germikil is only 50c a box postpaid anywhere.

IZE HEALING AND ANTISEPTIC POWDER.

For sore necks and shoulders on horses.

When spring work begins there is always more or less trouble with sore necks and shoulders on the work horses. We believe that Ize Healing Powder dusted on the sore spots will heal them while the horses are at work.

Just clean sore spot with soap and water and dust with this powder. The price is 50 cents per box, postpaid. Easy to use, as top of box is perforated.

IZE LICE OINTMENT.

Kills Lice, Nits and Mites on Poultry.

It is a poison.

Take a small piece the size of a pea and rub well in under the vent, back of the head and under the wings and it will keep your poultry free from lice and nits for six months or a year. Try a box. It only costs 50 cents. Enough for 100 hens.

IZE CANADIAN HORSE COLIC REMEDY.

Every owner of horses should have some reliable remedy on hand for horse colic. One season we lost two horses with horse colic and when the third horse had an attack we called in a veterinarian who happened to be a Canadian and he fixed up some medicine for us to give to the sick animal and after we gave three doses the horse was well. We have never been without this colic remedy since. Put 25 or 30 drops of Ize Canadian Horse Colic Remedy on a half tablespoonful of sugar and put sugar and medicine on back part of horse's tongue. Give every hour till horse is well. Price \$1.00 per bottle. You can't afford to be without it.

IZE RAT EXTERMINATOR.

Rats and mice are without a doubt one of the worst pests that mankind has to contend with. There are lots of rat killing poisons on the market and we have tried lots of them but we never could get rats to take kindly to most poisons until we run across Ize Rat Exterminator. It is easy to use. Sprinkle some of the rat exterminator on some raw liver or meat cut in small pieces and put where

rats or mice can get it. Repeat in 10 days or two weeks. Cannot be sent by mail. \$1.00 per box.

CARBOLA.

Carbola is a disinfecting Germ-Killing White Mineral paint which we use in our poultry houses instead of whitewash. Can be put on with a brush or sprayer. A gallon of water added to one pound of Carbola makes a paint that will cover 250 square feet of space. 10 lbs. cost \$1.00 f. o. b. Blair. Is not caustic or poisonous but destroys mites and disease germs in poultry houses. As a paint and disinfectant for dairies, barns, hog pens, cellars and outbuildings it cannot be excelled.

Recommended by agricultural colleges.

Prices, f. o. b. Blair, Neb.

10 lbs. (makes 10 gallons).....\$1.00
20 lbs. (makes 20 gallons)..... 2.00

BUG DEATH.

Bug Death kills bugs, but is not poisonous. Here is an insecticide that kills bugs but does not harm the plant or vine. Bug Death is not poisonous to human beings but it sure gets the bugs, etc., on Potatoes, Tomatoes, Cabbages, Currants, Melons, Beets and all other vegetables.

Price 15 cents a lb., 5 lbs. for 65 cents, 10 lbs. \$1.25.

Resurrection Plant.

Leg Bands.

RESURRECTION PLANT.

The Resurrection Plant is a rare and curious plant. It will grow if roots are placed in a pan of water and when taken out it curls up and goes to sleep, and when placed in water they grow again. Price, 15c each, two for 25 cents, postpaid.

LEG BANDS.

Mark your chickens with Leg Bands. We have them in Aluminum and Celluloid.

The Aluminum band is for grown chickens and is adjustable. They are numbered and numbers are clear and distinct. Prices, prepaid by mail, 12 for 15c; 25 for 25c.

We have the Celluloid leg band in eight colors for grown chickens and half grown chicks.

Prices for bands for grown chickens, 12 for 25c; 25 for 50c.

OUR GUARANTEE

ANYTHING you order from us that is not exactly as we say it is, you may return to us and we will send you back your money. We give you ten days time to examine and test our seed corn and other seeds. We pay the freight one way. We don't guarantee a crop. Our responsibility ends with your acceptance of our seeds. We get our money with orders, but we don't ask you to trade "sight unseen." We want you to feel as safe as if you were right here making a personal examination. If you don't get what we told you that you were going to get, just fire it back to us.

**AYE BROS.,
Blair, Neb.**

Where can you get a stronger guarantee? We make it strong. We know that our seeds will please you. No responsible firm can make a stronger guarantee.
